

# Election Day Assurance

Your Election Day success is Hart InterCivic's mission. The purpose of everything we provide – from professional implementation services to proactive maintenance to two-way communication to responsive ongoing support – is to ensure each of your elections runs smoothly.

## Elections are too important to leave to chance. That's why:

We created Verity – an all-new, low-maintenance system you can rely on.

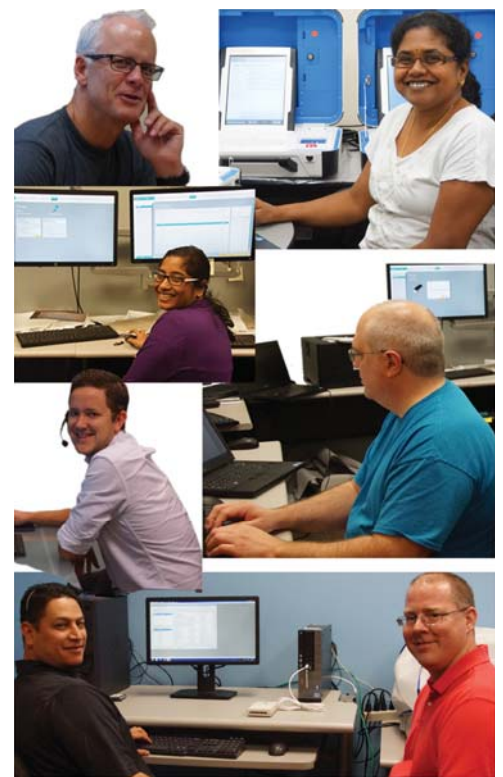

We focus on preventative maintenance before Election Day.

Our Customer Support Center is fully staffed with technical experts on Election Day.

You have unlimited access to knowledgeable technical support 24/7/365.

We're on-site with you on your first Election Day (and you can arrange for on-site support for subsequent elections).

Local repairs and replacements are available from our Michigan services team.

### Our Service Promise

We promise to continue exceeding customer expectations throughout the ownership experience.

Hart has a reputation for keeping our promises. Let us exceed your expectations for Election Day support. And for election success services all year long, every year.

For a Verity demo or custom quote call Karen Clakeley at 916.673.8764 today.
